

2010 Statewide Transportation Enhancements Program PSRC Regional Application Form

****Please read all of the text in this section before completing this application****

Important notice: The importance of complete and accurate information on every application cannot be overemphasized. The evaluation and scoring of all submitted projects will be based on the answers provided in this application. A project's suitability for funding may be compromised if the application is found to have omissions or inaccuracies.

Projects receiving funding as a result of this competition: Funding distributed as a result of the 2010 Statewide Transportation Enhancements Program is awarded competitively to projects, and not to the sponsoring agency itself. Sponsors of projects that are awarded funds from this competition will be required to submit a more detailed application in order to program the funds into the State and Regional Transportation Improvement Program. Please refer to the Schedule in the Call for Projects for more information.

Email submissions are preferred: Attach your completed application to an email and send it to tipapp@psrc.org. Please name the file "**2010 Enhancements-[agency]-[project title]**". If you are unable to email the application, please mail a copy of the electronic file on diskette or CD, and fax or mail a corresponding paper copy. Electronic copies of all applications are required, as they will be posted to the PSRC's web site. Mailed materials should be sent to: Tracy Murray, Puget Sound Regional Council, 1011 Western Avenue Ste 500, Seattle, WA 98104-1035 and/or faxed to 206-587-4825, Attn: Tracy Murray. For questions or to confirm receipt of your application, contact [Tracy Murray](mailto:Tracy.Murray@psrc.org), 206-971-3277.

Deadline: Applications must be received by PSRC by **5:00 PM on Monday, July 12, 2010**. Applications should be no more than **15 pages**, plus maps and/or other required supporting documentation.

PROJECT IDENTIFICATION AND DESCRIPTION	
1	<p>PROJECT TITLE: South Alder Avenue Sidewalk Improvements (Pioneer Street to Galena Street)</p>
2	<p>TRANSPORTATION 2040 ID# N/A</p> <p>To be eligible for funding, regionally significant projects must be explicitly identified in Transportation 2040, the region's long-range Metropolitan Transportation Plan (MTP). For the 2010 Statewide Transportation Enhancements Program, this would apply to regionally significant nonmotorized projects such as separated trails. To confirm whether your project is specifically listed in Transportation 2040, refer to http://www.psrc.org/assets/3763/Appendix_M.pdf. For assistance or questions regarding these issues, contact Kimberly Scrivner, 206-971-3281.</p>
3	<p>SPONSORING AGENCY: City of Granite Falls</p> <p>Note: non-profit organizations may administer grants from the 2010 Statewide Transportation Enhancements Program <u>unless the project requires design, right of way acquisition, and/or construction</u>. In such cases, a public agency must serve as the project sponsor.</p> <p>Co-sponsor(s) if applicable: None</p> <p><i>For the purposes of this application and competition, "co-sponsor" refers to any agency that would receive a portion of the funding if the requested grant were to be awarded.</i></p> <p>Does sponsoring agency have "Certification Acceptance" status from WSDOT? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>Please note: the requirement that public agencies have Certification Acceptance status has been waived for this program; however, all federal and state project requirements must still be met. Refer to the Washington State Department of Transportation Local Agency Guidelines Manual at http://www.wsdot.wa.gov/LocalPrograms/LAG/ for more information.</p>
4	<p>PROJECT CONTACT:</p> <p>Name: Brent Kirk Email : Brent.Kirk@ci.granite-falls.wa.us Phone: 360-691-6441</p>

5	<p>PROJECT DESCRIPTION</p> <p>Describe the proposed work and explain the nature of the entire project, including the existing and proposed conditions and type of use. Explain why the project is needed and how the project meets the eligibility requirements of the selected Transportation Enhancements categories. Attach a detailed 8 ½" by 11" vicinity map. Photographs are welcome, but not required.</p> <p>This project includes extending sidewalk improvements along the west side of Alder Avenue, from Pioneer Street to connect to existing sidewalk approx 90 LF north of Galena Street. The work includes 1010 LF of 5-foot wide sidewalk, curb and gutter, to include storm drainage improvements. The project meets the eligibility requirements because it provides facilities and safety improvements for pedestrians.</p> <p>Alder Avenue is an important pedestrian access, linking the high school and middle school with the downtown center of Granite Falls and adjacent neighborhoods. This project is located on the Snohomish County Community Transit Route 280, which provides transit service between Granite Falls and Everett.</p>
6	<p>PROJECT LOCATION: City of Granite Falls</p> <p>County(ies) in which project is located: Snohomish</p> <p>Answer the following questions if applicable:</p> <p>a. Crossroad/landmark nearest to beginning of project (identify landmark if no crossroad): The intersection of Alder Avenue and Pioneer Street</p> <p>b. Crossroad/landmark nearest to end of project (identify landmark if no crossroad): Approx 90 feet north of the intersection of Alder Avenue and Galena Street</p>
7	<p>PROJECT TYPE (Please select 1 or more of the following 12 eligible Transportation Enhancements categories):</p> <p><input checked="" type="checkbox"/> Provision of Facilities for Bicycles and Pedestrians</p> <p><input type="checkbox"/> Acquisition of Scenic Easements & Scenic or Historic Sites</p> <p><input type="checkbox"/> Scenic or Historic Highway Programs (including tourist & welcome center facilities)</p> <p><input type="checkbox"/> Landscaping and other Scenic Beautification</p> <p><input type="checkbox"/> Historic Preservation</p> <p><input type="checkbox"/> Rehabilitation and Operation of Historic Transportation Buildings, Structures or Facilities</p> <p><input type="checkbox"/> Preservation of Abandoned Railway Corridors (including conversion and use for pedestrian or bicycle trails)</p> <p><input type="checkbox"/> Control and Removal of Outdoor Advertising</p> <p><input type="checkbox"/> Archaeological Planning and Research</p> <p><input type="checkbox"/> Mitigation of Water Pollution due to Highway Runoff or Reduce Vehicle-Caused Wildlife Mortality while Maintaining Habitat Connectivity</p> <p><input checked="" type="checkbox"/> Provision of Safety and Educational Activities for Pedestrians and Bicyclists</p> <p><input type="checkbox"/> Establishment of Transportation Museums</p>
<p>PLAN CONSISTENCY</p>	
<p>Cities, towns and counties seeking federal funds managed by PSRC may submit an application only if their comprehensive plan has been certified by PSRC. All other agencies (e.g., transit agencies, WSDOT, tribal nations, nonprofit organizations, etc.) must show that their project is consistent with the applicable city and/or county comprehensive plan(s), and with VISION 2040 and Transportation 2040, the central Puget Sound region's long-range Metropolitan Transportation Plan. For questions on consistency and certification, contact Rocky Piro, 206-464-6360.</p>	
8	<p>CONSISTENCY WITH VISION 2040 AND TRANSPORTATION 2040</p> <p>All applicants must answer the questions in this section. If you need assistance, please contact staff at the local jurisdiction in which the project is located. Information on the current certification status of a local plan is available on the PSRC website at www.psrc.org/growth/planreview/statusreportppr/. For copies of VISION 2040 or Transportation 2040 documents, please contact the PSRC Information Center, 206-464-7532.</p> <p>Regionally significant projects that expand transportation system capacity must be identified in Transportation</p>

2040. This includes nonmotorized trails and separated pathways. For assistance refer to www.psrc.org/transportation/t2040/ or contact [Kimberly Scrivner](mailto:Kimberly.Scrivner@psrc.org), 206-971-3281.

Indicate the current certification status of the local comprehensive plan in the community where the project is located. Select only one from the drop down box below and provide the most recent date of certification action. If you select "Not Certified," leave the date field blank.

Certification Status: Certified Date of certification action (mm/dd/yy): 7/27/07

Please check all boxes that apply to the project's location. If portions of the project are located in more than one of the locations listed, please check all appropriate boxes. (See http://www.psrc.org/assets/465/Centers_small.pdf for more information.)

- The project is located outside the designated urban growth area.
- The project is located within the designated urban growth area.
- The project is located within an identified regional growth center or town/activity center. Refer to <http://www.psrc.org/growth/centers/> for more information. For identified local city/town locations, please describe.
 - Regional Growth Center(s): .
 - Regional Manufacturing/Industrial Center(s):
 - Local Town/Activity Center(s): Granite Falls

Is the project specifically identified in a local comprehensive plan?

- Yes. Indicate the (1) plan name, (2) relevant section(s), and (3) page number where it can be found:
- No. Describe how the project is consistent with the applicable local comprehensive plan, citing specific local policies and provisions the project supports. Please include the actual text of all relevant policies or information on where it can be found, e.g. the policy document name and page number.

This project is consistent with the City of Granite Falls Comprehensive Plan, per the following Pedestrian/Bicycle System Policies, found on page TR-19:

T19 Improve the safety of the roadway system to enhance bicycle and pedestrian use.

T22 Connect sidewalks to complete the pedestrian circulation system throughout the city.

T23 Use local revenues designated for sidewalk improvements according to the following priorities: To facilitate movement by elderly and disabled people among residences, work, shops and social activity centers; to facilitate movement by children to and from school facilities and other community facilities.

This project is consistent with the above policies because it extends sidewalk improvements within the downtown area. It improves safety and enhances pedestrian access. The project connects sidewalks to help complete the pedestrian circulation system. The project will provide ADA access to a transit stop, which facilitates movement by disabled people. The project extends sidewalk improvements between the downtown center and the City's elementary school, middle school and alternative high school, which are located north of this project on Alder Avenue. This facilitates movement by children to and from school facilities and other community facilities located downtown.

ADDITIONAL REGIONAL PROJECT EVALUATION

Part 1: Questions for All Projects

Instructions: Once all of the sections in Part 1 have been completed (questions 9 through 13), complete the appropriate questions in Part 2 (question 14 and one only of questions 15 through 18). Refer to the Regional Project Evaluation Criteria to assist you in answering these questions.

9 RELATIONSHIP TO CENTERS

Describe the relationship of the project to a regional growth center, town/activity center or connecting corridor.

The project is located within the City of Granite Falls City Limits and within the City of Granite Falls Urban Growth Area. The project is located on Alder Avenue, south of Granite Falls Middle School. It provides access from the schools and the downtown City center and community transit stops.

10 COMMUNITY SUPPORT

Describe the public review process for the project. List all letters received or other types of support for the project; include any negative response to the project. Provide the dates, times and locations of all public presentations. If appropriate, describe how the project meets identified state, regional and/or local planning objectives.

This project was discussed at the July 7, 2010 city council meeting, held at 7:00 pm at the City Hall council chambers, in regard to applying for the PSRC Enhancement Grant.

11 FINANCIAL PLAN

Please fill out Tables 11A - D below and corresponding questions 11E - F. The purpose of the tables and questions is to allow sponsors to fully document their project's financial plan and schedule. Tables 11A -C build upon one another to provide the estimated cost of each phase as well as a project's total cost (Table 11D). The tables require sponsors to list the Transportation Enhancements funds being requested (Table 11A), as well as ALL other sources of secured (Table 11B) and unsecured funds (Table 11C) needed to complete the project.

Provide financial information for all funding types in every applicable phase, and use a separate row for each funding source. Totals of federal and other funds listed in Tables 11A - C should equal the total project cost in Table 11D. Funding Commitment Letters must be provided for all financial partners.

Required Match: No local match is required; projects may be funded with 100% Enhancement funds.

11A: Enhancements Funds Requested

Phase (Planning, Preliminary Engineering, Right of Way, Construction, Other)	Estimated Obligation Date by Phase (mm/dd/yy)*	Enhancements Funds Requested
Planning	02/01/11	\$10000
Preliminary Engineering/Design	02/01/11	\$75000
Right of Way	N/A	\$0
Construction	05/31/12	\$503000
		\$0
TOTAL:		\$588000

*** Note: the required obligation deadline for these funds is no later than two years from selection approval, estimated to be January 2011.**

11B: Existing Secured Funding

Phase	Estimated Obligation date by Phase (mm/dd/yy)*	Source	Amount
Planning	N/A	N/A	\$0

Preliminary Engr/Design	N/A	N/A	\$0
Right of Way	N/A	N/A	\$0
Construction	N/A	N/A	\$0
			\$0
TOTAL:			\$0

*For tables B and C "obligation" may be defined as expenditure or other commitment of funds; for more information regarding secured and unsecured funding sources please refer to <http://www.psrc.org/assets/469/SecuredUnsecured.pdf>.

11C: Needed future funding (unsecured) Do not include the grant funds requested in Table 11A

Phase	Estimated Obligation date by Phase (mm/dd/yy)*	Source	Amount
Planning	N/A	N/A	\$0
Preliminary Engr/Design	N/A	N/A	\$0
Right of Way	N/A	N/A	\$0
Construction	N/A	N/A	\$0
			\$0
TOTAL:			\$0

11D: Total Project Cost

Total estimated cost of each phase		Scheduled completion date by phase (mm/dd/yy)	
Planning:	\$10000	Planning:	5/31/11
Preliminary Engineering/Design:	\$75000	Preliminary Engineering/Design:	5/31/12
Right of Way:	\$0	Right of Way:	N/A
Construction:	\$503000	Construction:	10/15/12
Other (Specify):	\$	Other (specify):	
Total Project Cost:	\$588000	Estimated date of completion (i.e. open for use)	10/15/12

11E. Identify the project phases (PE, ROW, CN, etc.) that will be fully completed if requested funding is obtained:

The project phases that will be completed include Planning, Engineering Design and Construction. There is no right of way acquisition required as a part of the project.

11F. If unable to completely fill out Table D (Total Project Cost), please explain why:

12 PROJECT READINESS

Please fill out the questions below if your project is requesting funds for a Right-of-way (ROW) and/or Construction (CN) phase. Projects requesting funds for a Preliminary Engineering phase need not answer question #12.

PSRC recognizes that the complexity of some projects can trigger a variety of prerequisites that must be satisfied before funding is typically eligible to obligate. These questions are designed to identify those requirements and assist sponsors to:

- Identify which requirements apply to their specific project.
- Identify which requirements have already been satisfied at time of application.
- Provide an explanation and realistic completion date for all requirements not yet completed.

Important instructions: For question 12A below, select one of the three options from the drop-down list for each item that applies at the time of submission of this application. These items are based on the documentation requirements for obligation of federal funds. For any item where "Item not yet completed" is selected, and for any additional requirements pertaining to the project, provide details in question 12B, including the estimated schedule

for completion.

12A. Check all that apply. If no ROW is required for the project, select “not needed” for sections b through g.

Not yet completed a. Final FHWA approval of environmental documents including:
 Not yet completed - BA Concurrence: NMFS, U.S. Fish & Wildlife, WSDOT.
 Not yet completed - Section 106 Concurrence.
 Not yet completed - FHWA Environmental Classification Summary Checklist (or EA or EIS).

Not needed b. True Cost Estimate for Right of Way.
 Not needed c. Right of Way Plans (stamped).
 Not needed d. Relocation Plan (if applicable).

Not needed e. Right of way certification.
 Not needed f. Certification Audit by WSDOT R/W Analyst.
 Not needed g. Relocation Certification, if applicable.
 Not needed - Certification Audit by WSDOT of Relocation Process, if applicable.

Not yet completed h. Engineer's Estimate.
 Not needed i. All environmental permits obtained such as Army Corps of Engineers Permit, HPA, etc.

12B. Additional information: include details on any items above that are not yet completed and provide an estimated schedule; please provide any additional information as appropriate.

This project has not yet been designed. There are no known wetlands, streams or critical areas near the project. No environmental permits are anticipated to be required for the project. A cultural survey has not yet been completed for the project.

13 OTHER CONSIDERATIONS

Please describe any additional aspects of your project not requested in the application that could be relevant to the final project recommendation and decision-making process. No points will be given to this section.

PART 2: CATEGORY SPECIFIC QUESTIONS

14 Select one of the following four categories that best fits your project and follow the corresponding instructions:

Nonmotorized Projects: Complete question 15.
 Scenic Resources Projects: Complete question 16.
 Historic Resources Projects: Complete question 17.
 Environmental Projects: Complete question 18.

15 NONMOTORIZED PROJECTS

Instructions: Complete this section if you selected “Nonmotorized Projects” in question 14.

Please explain how your project addresses the following:

- The project extends, completes or otherwise adds to an existing nonmotorized system or network.
- The project connects or links to other multimodal facilities (such as transit stations).
- The project addresses current nonmotorized needs in the community, e.g., - gaps in the system; safety issues, etc.
- The level of public exposure or access to the project (for example, current and future land use in the vicinity of the facility).
- Explain how the project relates to surface transportation. If the project has recreational aspects, demonstrate that the purpose is primarily for transportation rather than recreation. Explain how this enhancement is “over and above” normal project or activities (i.e., not routine or required).

This project extends 1010 LF of sidewalk improvements on the west side of Alder Avenue,

within the City of Granite Falls sidewalk system. The new sidewalk will connect to existing sidewalk located approximately 90 LF north of Galena Street, which extends north to the Stanley Street intersection.

The project connects multitmodal facilities, such as transit stops for Snohomish County Community Transit Bus Route 280, which has a tranist stop at the intersection of Pioneer Street and Alder Avenue.

The project addresses the pedestrian safety by extending the sidewalk system between the City's alternative high school, middle school, elementary school and the downtown center.

The current land use and future land use within the vicinity of the project, per the City's zoning map, is Central Business District and downtown multiple residential. This project improves the pedestrian link between the downtown residences, the city's elementary school, middle school, alternative high school and the downtown center.

The project is directly related to surface transportation because it provides pedestrian access (sidewalk) along a busy collector arterial. It provides ADA access to the transit stop at the intersection of Alder Avenue and Pioneer Street. This enhancement is not routine because it includes the use of LID technologies, such as pervious concrete for the sidewalk, and bioention vaults for storm water treatment. This project is located along a secondary truck route carrying up to 100 trucks per day in the peak season.

16 SCENIC RESOURCES PROJECTS

Instructions: Complete this section if you selected "Scenic Resources Projects" in question 14.

Please explain how your project addresses the following:

- The project promotes greater public appreciation or use of the transportation system.
- The project contributes to the preservation of significant scenic resources.
- The level of public exposure or access to the project.
- Long-term preservation plans to maintain the scenic character of the property.
- Whether or not there is perpetual ownership of the property.
- Whether or not the resource is threatened, or if there will be a loss of opportunity if the project is not funded.
- Explain how the project relates to surface transportation; explain how this enhancement is "over and above" normal project or activities (i.e., not routine or required).

17 HISTORIC RESOURCES PROJECTS

Instructions: Complete this section if you selected “Historic Resources Projects” in question 14.

Please explain how your project addresses the following:

For site-specific and/or capital projects:

- The historic significance of the facility.
- The planned use of the facility.
- Whether or not the project is part of a larger historic preservation plan.
- The level of public exposure or access to the project.
- Whether or not the resource is threatened, or if there will be a loss of opportunity if the project is not funded.
- The long-term preservation and/or maintenance plans for the facility.
- Explain how the project relates to surface transportation; describe the current or former transportation use of the facility. Explain how this enhancement is “over and above” normal project or activities (i.e., not routine or required).

For planning projects:

- The project’s relationship to the protection of historic or archaeological resources.
- Whether or not the project is part of a larger historic preservation plan.
- The long-term plan for ongoing management, updating and training.
- The level of public exposure or access to the project.
- Whether or not the resource is threatened, or if there will be a loss of opportunity if the project is not funded.
- Explain how the project relates to surface transportation; explain how this enhancement is “over and above” normal project or activities (i.e., not routine or required).

18 ENVIRONMENTAL PROJECTS

Instructions: Complete this section if you selected “Environmental Projects” in question 14.

Please explain how your project addresses the following:

- The relationship of the project to the transportation system.
- The need for the project.
- The long-term maintenance plans for the project.
- Whether or not the resource is threatened, or if there will be a loss of opportunity if the project is not funded.
- Explain how the project relates to surface transportation; explain how this enhancement is “over and above” normal project or activities (i.e., not routine or required).
