### **Freight Advisory Committee Meeting Summary**

**Date: October 8, 2025, 9:30a.m. – 11:00a.m.**

**Location: Remote – Online Meeting Only (Zoom Meeting)**

---

#### **Welcome and Introductions**

Doug Cox, PSRC, welcomed everyone at 9:30 a.m. Roll call was completed to confirm the members and alternates present.

#### **Action: Approval of Meeting Summary**

The August 13, 2025 meeting summary was approved as presented.

#### **Discussion: Transportation Policy Board Debrief and RTP Development**

Craig Helmann, PSRC, shared an update regarding the RTP scenario analysis results, development schedule, and feedback from the Board. The gap between available revenues and proposed expenditures is 21% for the 2026 RTP. Four scenarios with various levels of investments focusing on a variety of investment types have been analyzed and discussed to determine the best benefit for the Region moving forward. Explanations of the four scenarios and analysis metrics included in the linked presentation below. The Board will take action on the investment and funding portfolio in October and continue financial strategy discussions as necessary. PSRC has a total of six regional public meetings to inform the public about the RTP development. Both the Boards and the public seem to prefer scenarios 2A and 2B. PSRC will release the draft RTP for public comment in December.

Likely additional revenue sources that PSRC has identified include, road usage surcharges, license and registration fees, county road levy, sales tax allocated to local transit projects, and retail delivery fees.

The presentation is provided on PSRC's website [here](#).
