This project will develop the Transit Center presently operated by Kitsap Transit near the SR3 Corridor located at the intersection of Bruenn Avenue and Burwell Street in Bremerton, Washington. Once developed the West Bremerton Transit Center/Hydrogen Fueling Station/Park & Ride will include approximately five (5) bus berths, pedestrian canopies, a comfort station, a hydrogen fueling facility, and a park & ride accommodating at least 210 vehicles. Additional pedestrian features will include sidewalks/crosswalks, lights, cameras, and bicycle storage to enhance safety and security. This is a multi-year project that spans beyond the current TIP timeframe.

This is a 2025-26 TIP bucket project for preventive and capital maintenance of Kitsap Transit's passenger only ferry system (POF). Funds for capital maintenance activities will support a state of good repair for ferry terminals, POF vessels and related maintenance costs. Acquisition of ferry terminal materials and equipment includes safety, electrical, mechanical and other miscellaneous parts and equipment. Acquisition of vessel spare parts includes impellers, driveshafts, engines, gearbox, jets and other driveline and miscellaneous parts. Toll credits will be used as a local match for this project. The bucket project completion will be based on approximately 3% of the overall annual budget represented by the federal funds.

This project will construct a single lane roundabout at the intersection of Valley Ave and 58th Ave. The roundabout will provide traffic calming and improve safety and mobility for all travel modes at the intersection. The roundabout will have an approx. 100' inscribed diameter with splitter islands on each approach. The center island will have a mountable apron to accommodate school and transit buses. The project will construct curbs and sidewalks at the intersection. Each leg of the intersection will include a marked crosswalk with an island refuge that will allow pedestrians to cross one direction of traffic at a time. The east and west leg crosswalks on Valley Ave will include RRFB systems. The project will include sidewalk segments for shared use by pedestrians and bicyclists on all intersection approaches. The project will add additional lighting at the intersection.

Continue PSRC's Rural Town Centers & Corridors program, as established by PSRC in Oct. 2003. Projects for planning and implementation tasks will be recommended through a collaborative process involving the four countywide organizations, WSDOT, and the PSRC boards. Eligible geographic areas are (1) incorporated rural town centers and unincorporated rural community centers outside the region's contiguous UGA boundary; (2) other town centers inside the contiguous UGA but which also include portions of a rural highway corridor. The funds in this TIP project are a placeholder until grant competition is held.

This is a TIP bucket project providing state of good repair/preventative maintenance for Sounder commuter rail and Link light rail rolling stock and related rail facilities to extend the life and ensure continued performance of these assets. Sounder includes a current active fleet of 81 locomotives and cab/coach cars and Link light rail active fleet currently includes 65 vehicles. The project includes FTA 5337 HIFG funds to be expended over the span of FFY's 2023-2024 and will provide for labor and fringe costs incurred for engineering maintenance of vehicles, transit way, related structures and supporting maintenance facilities, as well as administrative support of these activities. FTA 5307 funds will be used for replacement and upgrades to the Passenger Information Systems (PIMS) for Sound Transit's rail program. Federal funds represent 12% of the total project cost.
