You don't often get email from laelcwhite@gmail.com. [Learn why this is important](#)

Pertaining to Project Selection:

My name is Lael White, rail advocate with Climate Rail Alliance and the Rail Can't Wait Coalition.

As you move forward with project selection and transportation policy, please support all-day and weekend through service on Sounder between Everett and Lakewood.

This will promote equitable mobility; many people must commute during off-peak hours. Commuters would choose the train if it were more convenient to go to destinations beyond Seattle - without switching trains.

These policy and project pieces will help decongest our roadways and encourage a culture of commuting by rail. Sounder service needs to catch up with the enormous popularity of the Link system.

Also, if it is still in negotiation, please be sure to co-locate the Everett Link station within easy walking and wheelchair access to the Amtrak/Sounder/Transit hub.

Thank you for taking my comments.

Our team can be reached at info@climaterailalliance.org
