

2023-2025 WSDOT Consolidated Grant Regional Priority Ranking for PSRC Region: Project Sponsor Follow-Up Questions

Sponsor: Transportation Choices Coalition

Project Title: Regional Mobility Survey for Priority Populations

Question #1: Please provide additional details regarding your plan to survey people with limited English proficiency.

Answer #1: The survey has not been designed yet. The project Steering Committee and the contracted survey firm will decide on the questions, survey method, and outreach strategy. There is an expectation/requirement that the survey will include people with limited/no English proficiency, including (at minimum) any languages that 5% or more of the population speak within any county. Beyond that, the Steering Committee will review which additional languages and populations we should add.

The steering committee will be composed of the three mobility management coalitions, and the four largest public transit agencies. PSRC and WSDOT staff are also invited/encouraged to participate. With this steering committee, we expect to create a well-designed & -implemented survey that will capture the mobility gaps for priority populations of the region, including those with limited/no English proficiency. Through the RFP process, we will contract with the firm that will best perform this work.
