

2025 FGTS Data Request

Wenjuan Zhao
Washington State Department of Transportation
February 12th, 2025

Freight and Goods Transportation System

- FGTS classifies multimodal freight corridors in Washington State based on freight tonnage carried
- WSDOT updates the FGTS every two years to meet legislative requirements, guide freight investment decisions, and support planning

FGTS truck corridor classification

Classification	Annual tonnage
T-1	> 10 million tons
T-2	4-10 million tons
T-3	300K-4 million tons
T-4	100K-300K tons
T-5	≥ 20K tons in 60 days

**FMSIB
Strategic Freight Corridors**

2025 FGTS Request

WSDOT is requesting FGTS classification data (T-1 to T-5), supporting truck volume data and estimated tonnage from cities, ports, and MPO/RTPOs:

- T-1 and T-2 Corridors: truck volume data and estimated tonnage **not older than June 2021 is required. Data older than June 2021 will not qualify for T-1/T-2 designation.**
- T-3 through T-5 Corridors: truck volume data and estimated tonnage not older than June 2021 is recommended.

Data Request timeline and process

- **February 7th:** WSDOT sent out FGTS data collection requests to MPO/RTPOs
- **February 20th:** WSDOT hosts a technical webinar to provide guidance and address questions
- **February - May:** MPO/RTPOs coordinate with cities and ports to gather data and complete data submission forms for respective jurisdictions/regions
- **No later than June 13th,** MPO/RTPOs submit the completed data submission form for their region to WSDOT.

Resources

- Use the data submission form to provide data for 2025 update
 - Read the “Instructions” first and use the tonnage calculator
 - T-1 and T-2 routes with outdated data are highlighted in red, and the T-3 to T-5 routes with outdated data are highlighted in yellow
- Join the [FGTS technical webinar](#) on February 20th from 10-11 AM for guidance on how to complete the data request
- Access WSDOT online map to view existing FGTS corridors: [Freight Transportation System in WA](#)

2025 FGTS Update Schedule (tentative)

Steps	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec
Local and regional freight data collection											
Data review, validation & visualization											
Submission of Strategic Freight Corridors to FMSIB											
Report and GIS data publication
