

# Local Comprehensive Plans Certification Report City of Mill Creek Comprehensive Plan

March 27, 2025

The Puget Sound Regional Council conducted a certification review of the City of Mill Creek comprehensive plan. Mill Creek adopted their 2024 comprehensive plan update on December 10, 2024. PSRC staff provided comments on the draft plan in November 2024 to inform the final plan adopted by the city.

This document is organized into two primary parts: a statement of certification and any applicable conditions to certification; and a discussion of conformity with the Growth Management Act and consistency with VISION 2050 by topic area.

## Certification Action

The Puget Sound Regional Council certifies that the transportation-related provisions in the City of Mill Creek 2024 comprehensive plan conform to the Growth Management Act and are substantially consistent with multicounty planning policies and the Regional Transportation Plan.

Within the central Puget Sound region, local governments and PSRC have worked together to develop an overall process for reviewing and certifying local, countywide, regional center, and long-range transit plans.<sup>1</sup> Transportation-related provisions that are key for certification are based on RCW 47.80.026 and the Growth Management Act (RCW 36.70A). This report may recommend additional work to fully address the requirements of the Growth Management Act, VISION 2050, or the Regional Transportation Plan, although such revisions may not be strictly required for certification. Jurisdictions are encouraged to address those items during upcoming comprehensive plan updates and other planning efforts.

## Conformity with Growth Management Act Transportation Planning Requirements and Consistency with Regional Plans and Policies

### OVERVIEW

This section discusses conformity with the Growth Management Act (RCW 36.70A.070(6)) and the transportation-related requirements for local comprehensive plans. It also discusses consistency with the adopted multicounty planning policies (established regional guidelines and principles under RCW 47.80.026) adopted in VISION 2050 and the Regional

<sup>1</sup> The certification requirement in the Growth Management Act is described in RCW 47.80. The specific requirements for transportation elements in local comprehensive plans are spelled out in RCW 36.70A.070. PSRC's Interlocal Agreement, Section VII, also provides direction for the review of local comprehensive plans and countywide policies (Resolution A-91-01, amended March 1998). The Council's Executive Board last updated its process for Policy and Plan Review in September 2003. The process is also described in [VISION 2050: Implementation](#).

Transportation Plan. In addition to the multicounty planning policies, VISION 2050 contains a regional growth strategy with a preferred distribution of the region's residential and employment growth, as well as several implementation actions for local governments to carry out. Each policy area addressed in VISION 2050 is discussed in turn below. More information about the requirement to review and certify local plans is provided in the [Adopted Policy and Plan Review Process](#).

Plans are reviewed using PSRC's [VISION 2050 Consistency Tool](#). This report documents where the plan meets requirements, highlights outstanding provisions of the plan, and identifies where additional work is needed to fully address VISION 2050, the Regional Transportation Plan, or Growth Management Act planning requirements. This section is organized by the sections in VISION 2050. While this may align with plan elements, many of these concepts may be addressed in various parts of local comprehensive plans.

## Regional Collaboration

### Scope of Review

The Growth Management Act (RCW 36.70A.070(6)) and VISION 2050 call for local comprehensive plans to:

- **Coordinate** with other jurisdictions, agencies, tribes, ports, military installations, and special purpose districts.
- Prioritize **access to opportunity** for people of color, people with low incomes, and historically underserved communities.
- Address opportunities and challenges related to **military installations** when applicable.
- Prioritize investments in **centers**.
- Explore **funding sources** and fiscal tools to meet infrastructure and other needs.

### Certification Findings

The Mill Creek comprehensive plan effectively addresses regional collaboration policies in VISION 2050. The plan includes policies and discussion on coordination with other jurisdictions, agencies, Tribes, ports, and adjacent regions. The plan calls for coordination to ensure consistency among agencies in implementing the Regional Transportation Plan and Regional Growth Strategy.

# Regional Growth Strategy

## Scope of Review

VISION 2050 calls for local comprehensive plans to:

- Incorporate **housing and employment targets**.
- Use **land use assumptions** substantially consistent with countywide growth targets.
- Demonstrate sufficient zoned **development capacity** to accommodate targets.
- Use consistent **land use assumptions** throughout plan.
- Maintain a **stable urban growth area** with densities that support the Regional Growth Strategy.
- Support growth in designated **centers and high-capacity transit station areas**.
- Manage and reduce **rural growth** and protect natural resource lands.

## Certification Findings

The Mill Creek comprehensive plan effectively addresses the Regional Growth Strategy policies in VISION 2050. The plan demonstrates that the city has sufficient capacity to accommodate its adopted growth targets of 3,887 residents, 736 jobs, and 2,617 housing units through 2044. The city increased zoning capacity in this update to accommodate housing and job needs.

## Environment

### Scope of Review

VISION 2050 calls for local comprehensive plans to:

- Ensure **air quality standards** are met and reduce emissions of air toxics and greenhouse gases.
- Protect **critical areas and habitat** through coordination and environmental stewardship.
- Plan for **park, trail, and open space** resources and needs.
- Protect and enhance **tree canopy and native vegetation**.
- Protect and restore **water quality**, including actions to restore shorelines and estuaries, remove fish-passage barriers, reduce toxic products, and manage stormwater.
- Ensure **access to healthy environments** for all residents, prioritizing the reduction of impacts for vulnerable residents.

## Certification Findings

The Mill Creek comprehensive plan effectively addresses the environmental policies in VISION 2050. The plan includes an Environment element and a Parks, Recreation, and Open Space element that support protecting critical areas and protecting water quality. The plan

includes a policy to ensure residents have equitable access to clean air, clean water, and a healthy natural environment. The plan identifies park, open space and trail needs and includes policies and projects to enhance and protect these resources. Mill Creek plans to develop a Parks, Recreation, and Open Space (PROS) Plan in 2025.

## Climate Change

### Scope of Review

VISION 2050 calls for local comprehensive plans to:

- Reduce **greenhouse gas emissions** in support of state, regional, and local reductions goals.
- Protect and restore natural resources that **sequester and store carbon**.
- Address impacts to **vulnerable populations** that have been or will be impacted by climate change.
- Retrofit **existing buildings** to reduce building energy use.
- Increase **resilience** by identifying and addressing the impacts of climate change and natural hazards.
- Address **rising sea levels** by siting and planning for relocation out of the floodplain.

### Certification Findings

The Mill Creek comprehensive plan effectively addresses the climate change policies in VISION 2050. The plan includes policies to meet or exceed the region's greenhouse gas emission reduction goals. The plan identifies the impacts of climate change and natural hazards and includes policies to increase resilience by developing resilience hubs, creating evacuation plans, and developing and implementing notification alerts to prepare for emergency events.

The city should address the following comment in future updates to the plan:

- The city has made important progress on addressing climate change in the comprehensive plan. The Department of Commerce plans to release final guidance on climate planning consistent with House Bill 1181 in 2025, which will apply to the implementation progress report for jurisdictions in the Puget Sound region. The city should be aware of this upcoming deadline and monitor whether the plan's current state reflects the new requirements.

## Land Use/Development Patterns

### Scope of Review

VISION 2050 calls for local comprehensive plans to:

- Build **thriving urban communities** through inclusive engagement.
- Support **centers** as connections to opportunity.
- Address **healthy environment**, physical activity and well-being, and safety, while reducing disparities.
- Support **annexation and incorporation** by planning for phased growth of communities.
- Preserve **rural areas and natural resource lands**.
- Evaluate potential **residential and commercial displacement** and mitigate impacts.
- Limit **incompatible uses** adjacent to military lands, industrial centers, and tribal reservation lands.

### Certification Findings

The Mill Creek comprehensive plan effectively addresses the land use and development patterns policies in VISION 2050. The Mill Creek Town Center, South Town Center, and East Gateway Subareas are identified in the plan as community focal points and locations for more compact, walkable mixed-use development. The plan evaluates residential and commercial displacement risk and provides policies to mitigate displacement impacts. The plan includes policies supporting the orderly and efficient incorporation of urban unincorporated areas.

# Housing

## Scope of Review

The Growth Management Act (RCW 36.70A.070) and VISION 2050 call for local comprehensive plans to:

- Provide an **inventory and analysis** of existing housing and housing needs at each income level.
- Document **sufficient land capacity** to accommodate housing for all income levels and emergency shelters.
- Identify **actions** to provide housing for all income levels.
- Identify and address **racially disparate impacts, displacement, or exclusion** in housing.
- Expand housing capacity for **moderate-density housing**.
- Promote **jobs-housing balance**.
- Support the **development and preservation of affordable housing** by considering inclusionary and incentive zoning and promoting affordable housing near high-capacity transit.
- Promote **homeownership** opportunities.

## Certification Findings

The Mill Creek comprehensive plan effectively addresses the housing policy topics in VISION 2050. The plan provides capacity for housing needs for all income levels and for emergency housing. The plan identifies policies and regulations that may result in racially disparate impacts, displacement and exclusion in housing.

The city should address the following comment in future updates to the plan:

- The region is facing a housing crisis, and jurisdictions should act with urgency to address the housing needs of all residents. The city is encouraged to continue to work with regional partners to monitor housing conditions, to implement housing strategies, and to amend the plan periodically to adjust to changing conditions.

## Economy

### Scope of Review

VISION 2050 calls for local comprehensive plans to:

- Identify and enhance **industry clusters**, including those that provide goods and services for export.
- Support retention and recruitment of **family wage jobs** and small businesses that are **locally, women-, and minority-owned**.
- Develop a **range of employment opportunities** to create a closer balance between jobs and housing.
- Address and prevent potential **physical, economic, and cultural displacement** of existing businesses.
- Expand **access to opportunity** and remove barriers for disconnected communities.
- Recognize and empower the contributions of the region's **culturally and ethnically diverse communities**.

### Certification Findings

The Mill Creek comprehensive plan effectively addresses the economy policies in VISION 2050. The plan includes several policies aligning economic development with compact land use patterns and growth targets for housing and employment. The plan promotes increased economic opportunity for residents by including policies aimed at attracting key regional industries and diverse living-wage jobs.

## Transportation

### Scope of Review

The Growth Management Act (RCW 36.70A.070(6)) requires local comprehensive plans to:

- Use **internally consistent land use assumptions** and forecasts of travel demand and that are consistent with growth targets.
- Provide **inventories of existing facilities**, and level-of-service standards and concurrency provisions that address multiple modes of travel, planned land uses and densities, and state highways.
- Include a **multiyear financing plan** and reassessment strategy to address potential funding shortfalls.
- Direct **demand management**, including programs to implement the Commute Trip Reduction Act.
- Plan for **pedestrians and bicycles**, including capital investments, education, and safety.
- Discourage **incompatible uses adjacent to airports**.
- Address **air quality** and the reduction of pollutants consistent with WAC 173-420-080.

VISION 2050 also calls for local comprehensive plans to:

- Plan for **system maintenance, safety and emergency management**.
- Support the **Regional Growth Strategy**.
- Provide **alternatives to driving alone**.
- Plan facilities and services for **special needs transportation**.
- Avoid the creation of new and expanded facilities in **rural areas**.
- Identify **racial and social equity** as a core objective when implementing transportation projects.
- Protect the **environment** and reduce stormwater pollution.

### Certification Findings

The Mill Creek comprehensive plan effectively addresses the transportation planning requirements of the Growth Management Act and the transportation policies in VISION 2050. The plan includes maps and supporting information on transportation facilities and services operated within the jurisdiction. The plan documents travel demand forecasts and assumes growth consistent with the land use element and adopted countywide growth targets.

The city should address the following comments in future updates to the plan:

- The plan includes estimated transportation project costs as well as a list of probable revenue sources available to the city, but it is unclear if the anticipated revenue is adequate to meet the identified project costs. The Growth Management Act (RCW 36.70A.070(6)) requires that local comprehensive plans include a multiyear transportation financing plan for how a jurisdiction will meet the mobility needs

identified for the planning period. While the plan outlines long-term transportation projects and costs, it does not quantify anticipated revenue for the planning period. The plan should be updated to balance costs and revenues and address possible funding shortfalls including a reassessment strategy (RCW 36.70A.070(6)(iv)). Additional information about long-term anticipated costs and revenues, including programmatic costs, should also be included in the transportation planning over the twenty-year period. Further guidance on how to address the financial analysis in the plan can be found in the [Department of Commerce's Transportation Element Guidebook](#), pages 202-212.

- Please note that the Growth Management Act will require multimodal level of service standards in central Puget Sound jurisdictions by 2029, and additional guidance may be available in the future to refine adopted standards.

## Public Services

### Scope of Review

VISION 2050 calls for local comprehensive plans to:

- Promote **coordinated and efficient** use of public services.
- Protect **water quality** by serving urban development with sewer systems and replacing failing septic systems.
- Consider the **impacts of climate change on public facilities** and promote renewable energy.
- Promote **affordable and equitable access to public services**, especially for underserved communities.
- Promote working with school districts on **school siting and design** to support safe, walkable access.

### Certification Findings

The Mill Creek comprehensive plan effectively addresses the public services policies in VISION 2050. The plan promotes the coordinated and efficient use of public services with the intention of providing sustainable, equitable, and affordable services for current and future Mill Creek residents and employees.

### Conclusion and Next Steps

PSRC found the City of Mill Creek comprehensive plan is substantially consistent with the transportation-related provisions of the Growth Management Act, VISION 2050 and the Regional Transportation Plan.

PSRC encourages the city to address areas identified for additional work in upcoming plan updates and other planning efforts. These may be areas where additional work would make the plan more consistent with the Growth Management Act or VISION 2050 and areas that may be necessary to address prior to the 2029 Growth Management Act Implementation Progress Report.

PSRC is available to provide assistance with future plan updates. Find additional planning resources on [PSRC's Plan Review webpage](#). If the city has questions or needs additional information, please contact David Dixon at 206-464-6172 or [ddixon@psrc.org](mailto:ddixon@psrc.org) and Katie Enders at 206-587-4812 or [kenders@psrc.org](mailto:kenders@psrc.org).
