She highlighted demographic trends among individuals with mobility and accessibility needs, as well as key insights from the 2023 Regional Household Travel Survey, which help explain the travel behaviors of priority populations. She outlined the two-phase outreach approach: Phase 1 (March–May), which will focus on identifying the transportation needs of priority populations; and Phase 2 (June–October), when the collaboration with communities and stakeholders is planned to develop prioritized strategies based on the identified needs. PSRC requested the committee’s assistance in identifying organizations to support outreach efforts.
