

2015 Rural Town Centers & Corridor Program Project Recommendation

Projects Recommended for Funding

County	Agency	Project Title	Phase	Amount	Project Description
King	Duvall	SR 203 Safety Improvements and Road Reconstruction	Construction	\$1,052,073	Reconstruct SR 203 to include bike lanes, curb, gutter and sidewalks on both sides along with associated utility, lighting, channelization, and streetscape improvements.
Pierce	Eatonville	SR 161/Washington Ave N. Corridor Streetscape Project	Construction	\$769,927	Construct intersection improvements at SR 161 and Center Street. Improvements include a new traffic signal, ADA-compliant pedestrian facilities, and landscaping and civic amenities.
Snohomish	Stanwood	90th Avenue NW	Right of Way	\$350,000	Extend 90th Avenue NW from 271st Street NW to SR 532. The project will include installing drainage, street lighting, curb, gutter, sidewalks and planter strips.
Kitsap	Kitsap County	Washington Boulevard Corridor Improvement Project	Construction	\$450,000	Construct pedestrian and bicycle facilities on Washington Boulevard. The project includes installing ADA ramps on SR104, luminaires, pedestrian lighting, sidewalks and storm water facilities sized for the project.
Pierce	Pierce County	Foothills Trail - Buckley to South Prairie	Construction	\$378,000	Construct an additional segment of the existing multiuse trail using porous asphalt for 1.3 miles.

Total Funds Recommended \$3,000,000

Projects Recommended for Contingency List (in priority order)

County	Agency	Project Title	Phase	Amount	Project Description
Pierce	Pierce County	Olson Drive KPN/92 Street KPN - Key Center Sidewalks	Preliminary Engineering /Design	\$51,360	Widening existing two lane roadway to include four foot wide paved shoulders, storm drainage, as well as new concrete sidewalks and driveway approaches on both sides of roadway.
			Right of Way	\$192,030	
Snohomish	Sultan	5th Street Reconstruction	Preliminary Engineering /Design	\$25,833	Reconstruct 5th Street from US 2 to Main Street, including the replacement sidewalks together with ADA compliant curb ramps on the west side, storm drainage improvements, and replacement of existing traffic loop detectors.
			Construction	\$198,055	
Snohomish	Snohomish	30th Street Widening Project	Construction	\$567,000	Widen 30th Street west of SR 9 intersection to support the addition of a turn lane to 30th Street and provide associated improvements, including signal work, channelization, drainage, and new sidewalks.
King	Snoqualmie	Kimball Creek Box Culverts	Construction	\$1,704,660	Replace two structurally deficient bridge crossings along Meadowcreek Way SE with wider concrete bridges (i.e. box culverts). The reconstructed roadway will be widened to include sidewalks and bike lanes in both directions.
King	King County	Safety Improvements on Woodinville Duvall Road	Preliminary Engineering /Design	\$120,607	Super elevate a section of road, apply high-friction surface treatment and increase signage and possibly install new illumination on Woodinville Duvall Road.
			Construction	\$603,036	

Total Funds Recommended for Contingency List \$3,462,581
