VISION 2050 Amendments

- More than 1,600 comments from 600 commenters
- 200+ amendments to the draft
- Addressed many issues in update and with amendments
  - Growth strategy
  - Housing affordability
  - Displacement & equity
  - Healthy communities
  - Changes in transportation, freights and technology
  - Jobs/housing balance
  - Military installations
  - Climate change
  - Puget Sound recovery
  - Recognition of Tribes and culturally sensitive sites
- Setting a vision for the next 30 years
Minor Amendments

- Identified from public comments (Group C and C-REV). Board approved minor text or policy amendments at Nov 7 meeting

Board-Identified Amendments

- Identified from public comments and board member-initiated. Board previously approved amendments at Nov 7 and Nov 21 meetings.

  Key topics addressed: Climate goals, Pierce County allocations, jobs-housing balance, tribal lands, military installations, social equity

Regional Growth Strategy — pending additional amendments

- Finalize preferred alternative
- Revise Guidance for Aligning Growth Targets — amendments in packet
Board Amendments

- Refer to table dated December 5
- 13 total amendments remaining
- Call for action on individual amendments
  - Move to incorporate the _______ change(s) into the GMPB recommended draft of VISION 2050.
Regional Growth Strategy

- Draft RGS largely reflects Transit Focused Growth Alternative
  - Significantly increases allocations nears transit
  - Reduces regional impacts
  - Adjustments made in Pierce County and Kitsap County

- Amendment F-2 regarding Snohomish County remains for board consideration

Military Installations

Funding Background

- PSRC funding is split into regional and countywide allocations
- Regional funding is limited to projects that support regional centers
- Regional criteria includes: benefits to regional center, system continuity, long-term benefit, sustainability, air quality & project readiness
- Project Selection Task Force reviews/adjusts criteria every 2 years
- Limited number of applications per county for each funding round
- Transportation Policy Board uses policy direction from VISION to determine whether to open regional funding to military-related projects
Amendment F-17b would provide direction for TPB and the Project Selection Task Force to consider how to include military-related projects in the regional funding competition that could address impacts to nearby communities.

- Amendment would not support funding for on-base projects.
- Details of criteria would be worked out by Project Selection Task Force in 2021/22 for the 2022 round.
- Projects would still need to compete against other projects in each county and regionally.
Puget Sound Recovery

- Draft VISION 2050 includes several enhancements regarding Puget Sound and water quality
- Text edit amendments F-69-71 approved on November 21
- Remaining amendments (see table for full wording):
  - F-18a – Regional collaboration to accelerate recovery
  - F-18b – Develop method to support transportation projects that contribute to recovery
  - F-18c – Work with sewer and stormwater utilities to improve facilities
  - F-27 – Participate in regional efforts to restore Puget Sound
  - F-29 – Local action for cities and counties to work with utility districts
School Siting

- **Background:**
  - GMA prohibits urban services (like sewer) in the rural area, provides criteria for modifying UGA boundaries
  - Draft VISION 2050 includes changes directed by recent state legislation – state law change only applies to Pierce County
  - Counties each have policies/procedures for school siting and flexibility for working with school districts
- **Amendment F-43 policy edits (see table for full wording):**
  - PS-26 – Would allow countywide policies to override VISION 2050/MPPs
  - PS-26B – Supports Urban Growth Area expansions for schools
  - PS-27 - Would allow countywide policies to override VISION 2050/MPPs
Guidance to Align Growth Targets

- Updated from language in VISION 2040 and included in draft plan
- Regional Staff Committee work session in September and finalized text with Regional Staff Committee Co-Chairs VISION Working Group
- Revised to address
  - Outreach and guidance on plan review
  - Distinction between targets and capacity
  - More consistent terminology
  - Board amendment on reconciliation process
- See item F-73 on board amendment table
- Seek board action to incorporate revised text
Board Action

Recommend adoption of the draft VISION 2050 plan, as amended, to the Executive Board.
Today's Meeting

July 11th – July–Sept. 2019

- Outstanding policy issues
- Finalized draft growth strategy
- 60-day public comment period
- Review comments
- Finalize draft plan
- Recommendation to Executive Board

Fall 2019

- Adoption of VISION 2050 in Spring 2020
- Recommendation to General Assembly
- Release Final Supplemental Environmental Impact Statement
- Recommendation to Executive Board
- Review of public comments

Next Steps

Growth Management Policy Board
Executive Board
PSRC General Assembly
Thank you.
