The Snohomish County Housing Affordability Regional Taskforce (HART) is a collaborative group made up of elected officials working together to create a shared vision to address affordable housing challenges, increasing the stock of affordable housing, and supporting an ongoing structure for regional collaboration. HART developed a five-year action plan that identifies priorities for County and City governments to accelerate our collective ability to meet the affordable housing needs of all Snohomish County residents, and set a foundation for continued success through 2050.
