Land Use Technical Advisory Committee Meeting Summary

Date: April 22, 2019
Location: PSRC Conference Room, 1011 Western Avenue, Suite 500, Seattle, WA 98104

Introductions
Around the table introductions.

VISION 2050 Draft Supplemental Environmental Impact Statement
Senior Planner Erika Harris presented on the SEPA process. The Draft Supplemental Environmental Impact Statement was released on February 28 and followed by a 60-day comment period. VISION 2050 outreach included five open houses and multiple communications and stakeholder meetings.

Selecting a Preferred Alternative
Principal Planner Liz Underwood-Bultmann joined Ms. Harris and presented on the growth alternatives. This included the growth rates in population and in employment by geography for each alternative. There was discussion about jobs/housing balance. There was additional discussion of what 75% growth in transit areas would mean. A chart showing growth in different types of transit stations was reviewed that was broken down by county and then by the alternatives.

PSRC will provide meeting materials to the committee a few days ahead of May LUTAC meeting.

There was a question about variances between runs. It was explained that the median run is being used. There was also discussion about what does annual delay mean to the average commuter.

Next Steps
Next meeting will be in May – date and time to be determined.
Members Represented at the Table
Gary Hendricks, Pierce County; Rebeccah Maskin, King County; Jennifer Pettyjohn, City of Seattle; Gwen Rosseau, City of Bellevue; Frank Slusser, Snohomish County
