Regional Transportation Plan (RTP)

- Transportation 2040 was renamed to “Regional Transportation Plan”

- The RTP was an update to T2040 but included several key differences:
  
  - Limited Access Tolls were replaced with a Peak ($0.10/mi) and Off-Peak ($0.05/mi) road usage charge.
  
  - A Regional Integrated Transit Network for 2025 and 2040 was created with our transit partners and reflects bus/rail integration with ST stations.
  
  - Updated project information was included and is available at: https://www.psrc.org/our-work/regional-planning/rtp/regional-capacity-projects-list-and-approval-process
