

## Appendix E. Urban Open Space Needs

---

Map showing urban open space needs. See Chapter 5 and Appendix C for the methodology to create this map.

This map is intended to provide a rough estimate of the minimum amount of urban open space needed at a regional scale. Areas mapped here do not represent park access gaps themselves, but rather census block groups that overlap with park access gaps.

The methodology for developing this map is described in Chapter 5 and Appendix C. Areas not mapped as an urban open space need may still have open space needs. Local planning is needed to determine the specific urban open space needs of different communities.

- Urban growth area
- Regional Growth Centers
- Transit areas
- Census block groups without park access**
- Higher priority
- 
- 
- 
- Lower priority
- Non-residential areas
