Attention: Stephanie Tax

2019-2022 STIP Amendment 19-05

Dear Mr. Millar:

The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) received the May 31, 2019, letter from Ms. Stephanie Tax, requesting approval of 2019-2022 STIP Amendment 19-05.

Pursuant to 23 CFR 450.328 we find that the TIP Amendments for the Metropolitan Planning Organizations (MPOs) submitted for this round conform with the State Implementation Plan for reducing the severity and number of National Ambient Air Quality Standards (NAAQS) violations and insuring expeditious attainment of the standards.

In accordance with 23 CFR 450.218, the FHWA and the FTA, based on the certification of the statewide and metropolitan transportation planning processes for and within the State of Washington, hereby find that the projects described in the 2019-2022 STIP, approved January 10, 2019, and those projects submitted through subsequent amendments (including this Amendment) are based on a transportation planning process that substantially meets the requirements of 23 CFR Part 450 Subpart A, B and C, 49 U.S.C. Sections 5303-5035, and 23 U.S.C. Sections 134 and 135. We therefore approve the 2019-2022 STIP, as amended in 19-05.

Approval of the STIP and any amendments thereto are not to be construed as a Federal-aid eligibility determination. Each project must satisfy the specific requirements of the program
from which Federal funds are solicited, as well as other Federal requirements, before Federal funds are authorized.

If you have any questions concerning our joint action on this STIP amendment, please contact Matt Kunic, FHWA, at 360-753-9487 and/or Ned Conroy, FTA, at 206-220-4318.

Description: Complete reconstruction of 1.36 miles of 218th Avenue SE from SE Green Valley Road to Auburn Black Diamond Road in southeastern, Unincorporated King County, just west of the City of Black Diamond. 218th Avenue is a two lane road that varies in width between 30-60 feet. The project will excavate and restore the roadway sub-base, rebuilding the road with required drainage, overlay and striping, including the shoulder area. Three different methods of rebuilding the road are being explored. King County's approach is to apply the appropriate method of construction to various portions of the road depending on the subbase condition and depth.

The Fennel Creek - Segment 2 project designs and constructs a multi-use trail to provide pedestrian and bicycle access between 106th St East near Willowbrook, the terminus of the existing Fennel Creek Trail Segment 1, and Sumner-Buckley Highway. Elevated boardwalks and bridges are used at wetlands and two creek crossings. This project also includes related earthwork, retaining walls, drainage and site improvements, landscaping/fencing, and access/traffic control. Construction is split into two phases. Segment 2A begins at the end of the existing Fennel Creek Trail Segment 1 and extends to the southern edge of the "95th St Park to Angeline Trail." Segment 2B begins at the western edge of the "95th St Park to Angeline Trail" and ends at Sumner-Buckley Highway, where it connects to the City's existing sidewalk system. PSRC construction funds have been awarded to segment 2B.

Design for and upgrade existing traffic signal heads and signal phasing, install accessible pedestrian countdown signals and pushbuttons, and improve traffic signal timing, communication, and coordination. Original project did not include ADA upgrades to the ramps or any sidewalk work - this scope change allows the ADA ramps to be completed as part of the signal project. Project also overlays E Portland/Puyallup Ave intersection which further triggers ADA upgrades which will be paid with local funds.
