Special Needs Transportation Data Collection
Special Needs Transportation Committee – July 17, 2019
Initial Task:

• Improve Data on Special Needs Transportation Mobility Trends and Needs

This work will:

• Help develop a data-based Coordinated Plan
• Identify needs and gaps in special needs transportation data in the region
• Benefit other plan updates and planning activities
Data from Public Transit Agencies

- Fixed Route (rail, bus, ferries)
- ADA Paratransit/Demand Response
- Travel Training and Partnerships
- Origins and Destinations
Data from Other Transportation Providers including:

- Nonprofits/Human Services
- AAAs
- Healthcare Agencies
- Volunteer Transportation
- County/Subarea Mobility Coalitions
- Travel training/Information referral
Special Needs Transportation Data Collection

Programs funded by PSRC/State in the past

PSRC staff will review past grant applications and quarterly reports to collect information

Develop a list of performance metrics commonly used by non-profits/human service providers

Programs have not funded by PSRC/State in the past

PSRC outreach to agencies to collect data based on the identified performance measures
Next Steps

July 2019
Transit agencies will provide the data to PSRC

August-September 2019
PSRC research on existing data of other special needs transportation providers and agencies

Fall/Winter 2019
PSRC will report back the results
Thank you.
