Get ready: three-week closure of SR 99 coming soon

**What:** Three-week SR 99 closure and up to six weeks of traffic impacts

When the new SR 99 tunnel is ready to open, WSDOT will need to close the highway for approximately three weeks to realign SR 99 into the tunnel. The closure will extend from the south end of the Battery Street Tunnel to the West Seattle Bridge. There will be up to three weeks of additional ramp closures before and after the three week closure.

**SR 99 closed**
**Duration:** Approximately three weeks

Closure begins at West Seattle Bridge

All SR 99 on- and off-ramps will be closed between the West Seattle Bridge and the Battery Street Tunnel. The on- and off-ramps at Western Avenue will be open during the closure.

**One week before closure**
Southbound off-ramp to South Atlantic Street (access to I-5 and I-90) closes about one week before the full closure.

**One to two weeks after closure**
After the new SR 99 tunnel opens the northbound off-ramp to downtown will remain closed for up to two weeks.
**When:** Prior to tunnel opening

The closure will take place just before the new SR 99 tunnel opens. WSDOT will provide approximately one month’s notice before the start of the closure.

**Why:** Connecting SR 99 to the tunnel

Crews will have to work in the path of SR 99’s current configuration to connect SR 99 to the new tunnel. The graphics below show the path of SR 99 today (yellow) and the work zones during the closure (orange).
