

# VISION 2050

## Draft SEIS Open Houses

**We need your input!** PSRC will be seeking comments in March 2019 on the Draft Supplemental Environment Impact Statement (SEIS) for VISION 2050, the region's long-range plan to keep the central Puget Sound region healthy and vibrant as it grows.

The SEIS reviews the environmental effects of three regional growth alternatives that distribute growth in unique patterns throughout the region.

Drop in to an open house to learn more about the alternatives and join the regional conversation:

As the region prepares to add more people and more jobs in the coming decades — about 1.8 million more people by 2050 — VISION 2050 will provide a guide for sustaining a healthy environment, thriving communities, and a strong economy.
